Items: (Computer programs require MS Excel 97 or later.)			
Free programs you can download from www.analyzenow.com without passwords. Includes the Free Pre Retirement Planner	Free		
Free programs above mailed on a CD (Must also add mailing charge below.)	\$9.50		
Pre and Post Retirement Planner. E-mailed password. This is a program for those who are serious about planning for retirement and those already in retirement. It can analyze fairly complex situations and includes two programs running simultaneously to make comparisons of alternative approaches on a side by side basis. Also compares your scenario with those who retired in good and bad times in the past.	\$49.00		
Pre and Post Retirement Planner. Mailed on CD	\$59.00		
Dynamic Financial Planning Pro. E-mailed password. This is a program for scholars and planning investigators that helps to investigate investment and withdrawal theories and results for scenarios starting as early as 1926. It was used as the basis for the illustrations in both books below.	\$79.00		
Dynamic Financial Planning Pro. Mailed on CD	\$89.00		
J. K. Lasser's Your Winning Retirement Plan. <i>Business Week</i> said one of the two best retirement books. It helps you understand and select investments, develop pre-retirement or post-retirement plans, and manage your resources. Referenced often in <i>The Wall Street Journal</i> .	This book is currently available from www.amazon.com , other Web sites, and your local book store.		
Getting Started In A Financially Secure Retirement. This new book may be easier for many to use and, though less technical, adds more perspective and things to consider in planning. It's a big help to those who are not familiar with MS Excel used in the programs above. It gets high praise from its users and often cited in <i>Kiplinger's</i> publications, <i>Money</i> magazine and elsewhere.	This book is currently available from www.amazon.com , other Web sites, and your local book store.
